

What Will Set You Free

Certified Coach

Roel Snieder

Roel has over 15 years' experience as a teacher and licensed spiritual counselor working with college students in which he believes his primary role is to assist students in jumping over perceived barriers and limitations. In his coaching work he assists clients in accessing the 80% of their thinking that they are not aware of, in particular the unconscious scripts that run significant parts of their lives. Roel's coaching supports clients in revising and rewriting these scripts in order to have more harmony and fulfillment. His work with clients is based on the following principles:

- coming together in a loving atmosphere,
- being honest and speaking truth,
- creating empowerment and growth,
- tapping into inner wisdom.

Roel is a teacher at heart; he has been teaching science since 1984. He has assisted in *What Will Set You Free* workshops, taught his class *The Quantum You* at several Centers for Spiritual Living, and has developed and taught a class on *Science and Spirituality* at the Colorado School of Mines. He moved from the Netherlands to the United States in 2000 and feels fortunate and grateful that he has been able to reinvent himself so many times in a single lifetime.
